Actuators Tolomatic Inc

Tolomatic is a manufacturer of pneumatic actuators and electric linear actuator products including motors, valves, industrial brakes and gearboxes.

Linear Actuators & Linear Motion Control Products | Tolomatic

Tolomatic pneumatic linear actuators include space-saving rodless pneumatic linear actuator designs in band-type, cable and magnetically coupled air cylinder styles. Rod-style Power-Block™ pneumatic linear actuators or thrusters are perfect for short stroke applications.

Electric actuators can provide high forces, such as this RSX high-force actuator with roller screws from Tolomatic that generates forces up to 178 kN (40,000 lbf). Accuracy and Repeatability Although standard fluid actuators are good for end-to-end stroking applications, mid-stroke positioning is more complicated, requiring a control valve and ...

The case for pneumatic actuators Pneumatic actuators provide high force and speed at low unit cost in a small footprint. As a matter of fact, pneumatic cylinders provide more force and speed per unit size than any other actuator technology except hydraulic. Force and speed on pneumatic actuators are easily adjustable and are independent of each ...

Pneumatic cylinder(s) (sometimes known as air cylinders) are mechanical devices which use the power of compressed gas to produce a force in a reciprocating linear motion.: 85 Like hydraulic cylinders, something forces a piston to move in the desired direction. The piston is a disc or cylinder, and the piston rod transfers the force it develops to the object to be moved.
