Confucianism, also known as Ruism, is a system of thought and behavior originating in ancient China. Various descriptions include tradition, a philosophy, a religion, a humanistic or rationalistic religion, a way of governing, or simply a way of life. Confucianism developed from what was later called the Hundred Schools of Thought from the teachings of the Chinese philosopher Confucius (551–479 BCE).

Confucianism - Wikipedia

Mormon theology differs in several respects drastically from the theology of traditional Christianity. Not only is God personal and held to have been created by a prior god (who was again created by a prior god, etc.), according to the central doctrine of "eternal progression" human beings will ultimately become like God himself.

Cosmology and Theology (Stanford Encyclopedia of Philosophy)

Mathematical theology: Given the primary association of pantheons with religious belief, and despite the secularisation of belief systems, there is a case for exploring the challenge of emergent "unity" (and the nature of any "meta-pattern") through the seemingly improbable discipline of mathematical theology.

Investigations of the nature and origins of life concern various scientific, philosophical, and theological disciplines. Although any discussion of evolution and creation requires insights from each of these three areas, it is not always easy to keep these disciplines distinct: to know, for example, what is the appropriate competence of each field of inquiry.
