Learning Discussion Skills Through Games Gene and Barbara Dodds Stanford Citation Press / Scholastic Books 1969. Students are seated in a circle with the teacher standing outside the group. The teacher gives the following explanation: "Today we are going to play another game that will help improve your discussion skills."

Detective Game by Peter Pappas

Game-based learning, i.e., the use of games to learn, enables students to learn the concepts more quickly. Thus they develop the ability to solve problems and achieve goals faster and more effectively than if they were only reading or listening in a classroom course.

Learning Games: Develop the Most Demanded Skills in the Future

Games help us develop non-cognitive skills, which are as fundamental as cognitive skills in explaining how we learn and if we succeed, according to the panelists. We may think we're pretty smart, but in fact we have very little notion of how humans learn. Kids know: They play games. Until, that is, they go to school.

Form a circle and explain the game. This is a good game to use at the first meeting of a debating society, as it helps people learn each others names, while the skills taught in the game are helpful for good debate. The first person in the circle announces their name and has to make a statement about what they would do if they ruled the world.
