Lombardini Generator Engine

I bought another diesel light tower. It is a 2013 Wacker Neuson LTN6L. The engine is a Lombardini LDW 1003. The generator is a mysterious 6KW (240/115V) Italian model no label. It was sold as scrap- no control panel. We made one and got it started. It runs great- and has 137 V on both generator legs- lights mostly work, 115V outlet is fine.
