The United States housing bubble was a real estate bubble affecting over half of the U.S. states. It was the impetus for the subprime mortgage crisis. Housing prices peaked in early 2006, started to decline in 2006 and 2007, and reached new lows in 2012. On December 30, 2008, the Case-Shiller home price index reported its largest price drop in its history.

The importance of the housing market. The housing market in the UK is extremely important for two main reasons. Firstly, housing usually represents a household's biggest single purchase, and a house represents the largest single item of consumer wealth. Secondly, changes in house prices can have considerable effects on the rest of the economy.
