Students of color are suspended at disproportionately higher rates than white students and, on average, perform more poorly on standardized tests. But no peer-reviewed nationwide research has documented a link between the two disparities—until now. A new Stanford-led study finds that an increase in either the discipline gap or the academic achievement gap between black and

Racial disparities in school discipline are linked to the ...

Students Who Are Global Thinkers . Some students are global thinkers, which means their brains work hard behind the scenes as they read. As they read, learners may initially feel overwhelmed by the amount of information they're taking in, but then — almost like magic — discover that things start to make sense afterward.
