Trajectories and Pathways Modeling dynamic change in complex systems is a challenge across many fields of research, and resilience science is no exception. Conceptually, these models and ideas are not new; Gottesman illustrated such models decades ago (e.g., Gottesman, 1974 ) and they have been important in the history of developmental ...

### Global Perspectives on Resilience ... - Wiley Online Library

In the event of a spontaneous or emergency field shutdown, known as a 'quench', the liquid helium expands to a gas and must be vented very rapidly. The MR suite is designed to vent this to the outside of the building via a quench pipe, but if this fails or becomes blocked, some or all of the gas may enter the suite, necessitating rapid ...

Background: Little is known about the role of artificial intelligence (AI) as a decisive technology in the clinical management of COVID-19 patients. We aimed to systematically review and critically appraise the current evidence on AI applications for COVID-19 in intensive care and emergency settings. Methods: We systematically searched PubMed, Embase, Scopus, CINAHL, IEEE Xplore, and ACM ...
