In the past, Extra Lessons were only considered a necessity for students in their national exam year Grade 7, O' Level and A' Level. However with what was considered a gradual reduction in value of the formal education provided at school, parents felt the need to have their children take extra lessons at every level of school.

Against the background of Chinese culture, we investigated the relationship between family socioeconomic status (SES) and children's reading ability. Participants included 2294 middle-school students in grade 8. SES was measured by parents' education level, parents' occupational prestige, and family property, and children's reading ability was estimated with item response theory.
